

ANIKET OJHA

Software Developer | AI/ML Engineer | Test Automation Engineer
+91-6305341430 | aniketojha2805@gmail.com | [LinkedIn](#) | [GitHub](#) | Hyderabad, India

PROFESSIONAL SUMMARY

Final-year B.Tech (CSE-AI) undergraduate at KL University with strong expertise in Python, Java, FastAPI, React, and cloud-native AI/ML systems. Proven track record of building end-to-end RAG pipelines, real-time verification tools, and full-stack web applications. LeetCode Knight (Top 2.15% globally, Rating 2000+) with 300+ DSA problems solved. Adept at Agile/Scrum methodologies, REST API development, database design, and test automation. Seeking a high-impact software engineering role where system design, algorithmic thinking, and AI engineering skills can drive measurable business outcomes.

EDUCATION

B.Tech in Computer Science Engineering (AI Specialization)

2023 – 2027 (Expected)

KL University, Hyderabad, Telangana

CGPA: 9.55 / 10.0

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOP, Machine Learning, Deep Learning, NLP, Cloud Computing

TECHNICAL SKILLS

Programming & Core CS: Python, Java, C, TypeScript, Data Structures & Algorithms, System Design, OOP, DBMS, Operating Systems, Computer Networks

Backend & APIs: FastAPI, REST APIs, Microservices, Spring Boot (Basics), Unit Testing, Agile/Scrum, SDLC

Frontend: React, Next.js, HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Streamlit

Cloud & DevOps: AWS (EC2, S3, SageMaker), Docker, Kubernetes, Git, GitHub, CI/CD Pipelines

Databases: MongoDB, PostgreSQL, SQL, SQLite, IndexedDB

AI/ML & Data Science: Machine Learning, Neural Networks, NLP, Computer Vision, RAG, FAISS, LLaMA, YOLOv8, OpenCV, Scikit-Learn, Transformers.js, LangChain, Prompt Engineering

Testing & Automation: ServiceNow ATF, Selenium (Basics), Test Case Design, Manual & Automated Testing, Flow Designer

INTERNSHIP EXPERIENCE

AI-ML Virtual Internship

Apr 2025 – Jun 2025

Eduskill | AWS Academy | AICTE

- Completed a structured 10-week AI/ML program covering supervised/unsupervised learning, deep learning, and AWS cloud services (EC2, S3, SageMaker).
- Built, trained, and evaluated ML classification models achieving over 85% accuracy using Python (Scikit-Learn, Pandas) on real-world datasets.
- Deployed model inference pipelines using AWS services, gaining hands-on experience with cloud-based ML workflows and CI/CD practices.

ServiceNow Virtual Internship

Apr 2026

ServiceNow University | SmartBridge | AICTE

- Designed and automated business workflows using ServiceNow Flow Designer and Agentic AI modules, reducing simulated manual process time by ~40%.
- Configured and tested ServiceNow platform administration features; developed and executed 10+ test cases using the Automated Test Framework (ATF).
- Applied ITSM best practices and Agile methodology to deliver structured workflow automation deliverables, demonstrating cross-functional collaboration.

TECHNICAL PROJECTS

MyDocReader | [GitHub: github.com/aniketojha-dev/MyDocRead](https://github.com/aniketojha-dev/MyDocRead)

- Built a fully client-side RAG document assistant using Next.js 15, TypeScript, and Tailwind CSS — zero server costs, 100% privacy-preserving architecture.
- Implemented local vector embeddings via Transformers.js and IndexedDB for sub-500ms semantic search across PDFs, Word docs, and text files.
- Integrated OpenRouter and Groq LLM APIs to generate citation-backed answers with source references, supporting 3 file types and multiple LLM models.

NewsVerify | [GitHub: github.com/aniketojha-dev/NewsVerify](https://github.com/aniketojha-dev/NewsVerify)

- Engineered a real-time news verification tool using React + FastAPI with a hybrid FAISS vector search + SQLite full-text search pipeline.
- Cross-checked user claims against a knowledge base of 1,000+ verified events using Scikit-Learn cosine similarity, delivering confidence scores with ~78% accuracy.
- Added DuckDuckGo web search fallback and LLM reasoning layer (via OpenRouter) for unverified/recent events, reducing unanswered queries by ~60%.

My-Portfolio | [GitHub: github.com/aniketojha-dev/My-Portfolio](https://github.com/aniketojha-dev/My-Portfolio)

- Developed a responsive personal portfolio using React and Tailwind CSS, deployed on Vercel with 99.9% uptime; showcases 5+ projects and coding profiles.
- Optimized for mobile-first design achieving a Lighthouse performance score of 90+, ensuring accessibility across all device sizes.

CERTIFICATIONS

- Ethical Hacker (CEH) – EC-Council
- MongoDB Associate Developer – MongoDB University
- Advanced Automation Professional – Automation Anywhere
- AI & LLM Specializations (Prompt Engineering, RAG Agents, Agentic AI) – NVIDIA Deep Learning Institute
- Technology Job Simulation – Deloitte
- AI for Business (AI 101 Fundamentals) – Udemy

ACHIEVEMENTS

- LeetCode Knight – Top 2.15% globally (Rating 2000+); solved 300+ problems across Data Structures, Algorithms, and Dynamic Programming.
- Ranked in top 15% across 35+ competitive programming contests on CodeChef (Rating: 1263), demonstrating consistent algorithmic performance under timed conditions.
